## Christine Morrison

### Music to Soothe the Soul

Christine Morrison is a unique Musician, Composer & Teacher. Her piano music and vocal sounds have been said to "Soothe the Soul". Whatever your soul requires, her sounds & music reach it – in a gentle and compassionate way, allowing you to discover your inner talents and knowledge.

Christine was guided to work with sound and music when she was recovering from an illness. It played a major part in her healing, taking her on a journey of self-discovery and an awakening of her soul, also guiding her to realize her soul's purpose. Christine knows that her illness was meant to be. It guided her to remember how to use sound, colour and music in her life, and how to use it to connect with other realms and dimensions.

Christine believes that it is time for many of us to return to working with sound. Time for us to reconnect with our soul, to unlock our talents and gifts and gain insights at deep levels. Christine composes music specifically for the individual person. She connects with them on a soul level, and given a specific intent, intuitively composes their music, recording it to CD. She also runs group sound healing workshops, guiding those to remember how to work with sound using their voice, ancient instruments and colour.

Christine has reached and helped many people through her music. She has achieved a Bachelor in Education and Diploma in Sound Healing and resides in the northern coastal suburb of Perth with her family.

*"She has brought to Earth the sacred sounds from the Angelic realms of light. Every note feels as if it has been touched by the wings and the breath of Angels"*

**Lorna May Todd, Author of "Working with Angels and Nature Spirits"**

*"Christine provided a deeply nurturing and safe healing space that allowed me to gently unfold like a lily opening up to the sunlight. Her music touched places I didn't even know exist."*

**L.A. Counsellor and Natural Therapist**
